

# COUNTING WITH DICE

## Supplies:

- Dice Small
- Egg Carton or Muffin Tin
- Small Objects

1. Set out a die, and have your muffin tin/egg carton ready with your small objects beside it
2. Roll the die and count the dots with your child
3. Then place the corresponding number of objects into one section of the muffin tin/egg carton, counting as you go and repeat.

## Tips:

Small objects that work great for this are toy cars, pom poms, buttons, leaves, coins etc.

If you don't have dice, you can use a deck of cards and take one randomly from the deck instead
