

CRAFT STICKS ART

Supplies:

- Coloured craft sticks
- School glue

Instructions:

1. Set out coloured craft sticks and glue for your child.
2. Add dabs of glue on the end of the craft sticks to attach to another. Keep adding to your desire.
3. Let it dry completely and find a place to proudly display it.

Tips:

- This is all about the child's creativity. Let them create what they want.
- When your child is done, you may need to go back and add glue to spots to make sure everything stays together.
 - A hot glue gun works awesome for this.
