

FLASHLIGHT SCAVENGER HUNT

Supplies:

- Objects to hide
- Flashlight

Instructions:

1. Hide several of the same object throughout the area you playing in objects could include Lego toys and Easter eggs.
2. Wait until sunset, close the curtains or do this activity in a dark place.
3. Equip your child with a flashlight to hunt for the pre-hidden objects.

Tips:

- Make it seasonal or about something they're learning about, such as letters or numbers
- Instead of doing a scavenger hunt you could do it on the whim and encourage your child to bring you something of a certain shape or colour such as 'pink' or 'round'.
